

PPMP Competency Assessment

PPMP Competency Assessment is an online, image-based system designed to streamline the PPMP competency assessment process for POCT Coordinators and Providers.

POCT Coordinators spend valuable time...

- Sourcing samples and creating tests
- Distributing and collecting test materials
- Finding and reminding participants
- Documenting and grading results

PPMP Competency Assessment addresses these issues with...

- High quality digital specimen images - new tests questions in each topic are published biannually
- Simple test interfaces - multiple choice format that's easy to navigate
- Automated Email Notifications - 1-click sends reminders to the providers
- Automated Login for Providers - Email notifications provide an autologin link. The provider simply clicks on this link to go directly to their test menu.
- Real-time monitoring of test completions and documentation for inspectors - use the Reporting feature to track progress and to generate printable reports.

How to Participate

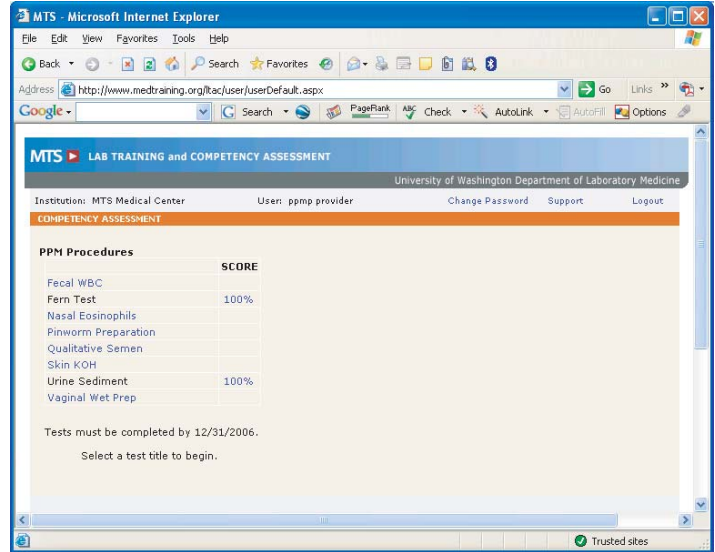

PPMP Competency Assessment is available via subscription. To get a quote for your facility, contact MTS at:

Toll-Free: 866-681-6700

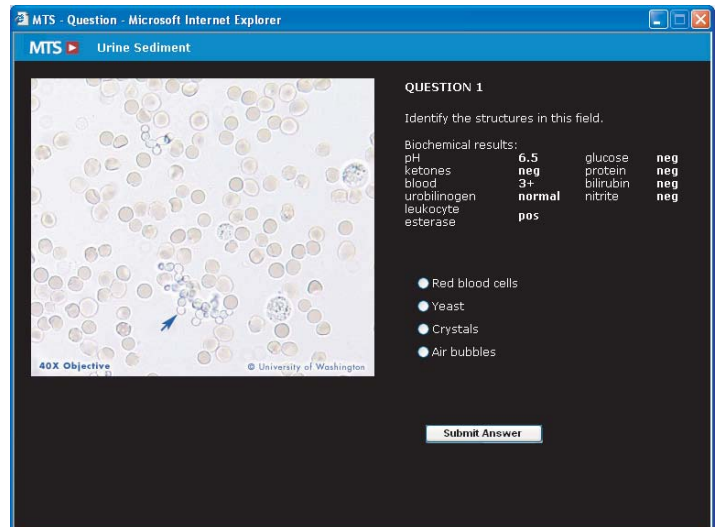

Email: sales@medtraining.org

Mail: PO Box 17349, Seattle, WA 98119
